## Company Contact Details

### Physical Address:

Unit 10 Nicholls Park  
19 Nicholls street, Chamdor, Krugersdorp

### Contacts:

- Sales Telephone: (+27) 083 304 5724
- Email: [distribution@eadsa.co.za](mailto:distribution@eadsa.co.za)
- Technical Telephone: (+27) 011 249 5000

**Co Reg No: 2017/444107/07**

**VAT Reg No: 4250280965**

# ED | ELECTRO DISTRIBUTION

## Mission

To only supply top quality local manufactured products using only the best equipment in the world to the electrical industry, catering for all our client's requirements through our vast knowledge and understanding of electrical systems and components.

As per client's specifications or with our own in-house designs, we design and manufacture all types of control panels and distribution boards that supply and distribute electrical supplies to various equipment. We automate production processes and any other types of systems that require either PLC Systems, or DOL control.

## Vision

To become the market leader in the designs and manufacturing of control panels and related equipment, with the added benefit of installations and equipment supply where needed.

To have the latest equipment wiring technology to make us the most effective and reliable source of supply and support of any electrical systems.

## Other services available:

### ED Sheet Metal Fabrication:

- Sheet Metal, from standard to specialized panel designs.
- Powder Coating, from standard colours to specific colour requirements, through our seven-stage process.
- Metal shaping into required designs.
- busbar supply, punching and bending.
- Welding and Grinding.

### ED Panel Manufacturing:

Starting with a design, working with given specifications.

All forms of control / automation and protection.

### Mining Control Panel:

- MCC's
- Star Delta & DOL starter panels
- Pump panels
- Heating systems control panels
- Winder panels
- General distribution boards

### Agriculture Control Panel:

- Livestock feeding – automation panels
- Broiler production control panels
- Breeder production control panels
- Laying production control panels
- Hatchery general distribution boards
- Piggery compartments control panels (from farrowing to finisher buildings)
- Silo plant control panels
- greenhouse & hydro tunnels control panels
- PLC automation of all agricultural systems
- Borehole control panels
- Pump & dam control panels
- General distribution boards
- Ventilation control panels

**Industrial Control Panels:**

- Process automation panels
- Genset management panels
- Genset AMF panels
- PLC control panels
- VSD control panels
- Motor protection panels
- BMS (building management systems)
- Production machines automation systems

**HVAC:**

- Damper panels
- Fire panels
- Chiller control panels
  
- PCB (Printed Circuit Board) repairs, components and testing of the units.
- On-site workers, installing control Panels, running cables, cable trays, lights, connecting and commissioning installed control panels, general electrical industry work.
- Cable supply, for 0.5mm – 95mm, all varieties required.
- Sheetmetal manufacturing
- Sandblasting
- Machine manufacturing.

---

*All Control Panels can be designed and manufactured with any 3<sup>rd</sup> party controllers if required.*
